

AI systems that actually run your business.

I'm Iva — founder of StudyScape and freelance AI automation engineer. I build the chatbots, booking flows, and back-office automations that let small teams operate like large ones — for hotels, clinics, and SMEs across the Netherlands, Croatia, Bulgaria, Romania, and beyond.

WHAT YOU GET

- A working AI system — not a slide deck
- Multilingual: EN, NL, HR, BG, RO, IT, DE (and more on request)
- Fixed price, written plan, signed contract — before any money moves
- Built on Claude, deployed on your domain, owned by you
- Monthly retainer for fixes and small additions — cancel anytime

LOWER HOTEL COSTS

40%

FEWER NO-SHOWS

~60 days

TYPICAL PAYBACK

Three tiers.

Build fee + monthly retainer. No hidden costs, no consultant theatre. Pricing scales by market — listed for Croatia / Bulgaria / Romania / UAE clients.

TIER 1 — QUICK WINS

2–4 days to build

AI customer service chatbot
€500–1,200 · €60–150/mo

Booking & appointment automation
€400–1,000 · €60–120/mo

Invoice & admin automation
€600–1,400 · €70–150/mo

TIER 2 — HIGH VALUE

1–2 weeks to build

CRM + lead pipeline automation
€700–2,000 · €100–220/mo

Social media content pipeline
€700–1,500 · €130–250/mo

Document & data automation
€1,000–2,500 · €120–250/mo

Email & outreach automation
€800–1,800 · €120–220/mo

TIER 3 — PREMIUM

2–4 weeks to build

Custom internal dashboard / tool
€1,500–4,000 · €160–350/mo

E-commerce backend automation
€1,200–3,000 · €150–280/mo

AI voice agent (phone answering)
€2,000–5,000 · €200–400/mo

Don't see what you need?

I build custom too — internal dashboards, voice agents, document automation, anything inside AI automation. Same process: we talk, I scope it, you get a fixed-price quote with plan and contract, then I ship.

No surprises.

Same process for every engagement — from a single chatbot to a custom internal tool. You always know what you're getting, when it's done, and what the next moves are.

01 · Talk

A 15-minute discovery call, free. You describe what eats your time. I tell you honestly whether automation makes sense and what system would fit.

02 · Quote · Plan · Contract

Within 48 hours: a fixed-price quote, a written build plan with delivery date, and a contract. You decide if you're in.

03 · Build

Two days to four weeks depending on the system. Weekly progress shown with a working demo — not slides. Changes scoped openly.

04 · Handover + retainer

Deployed on your domain, your team trained, monthly retainer for fixes and small additions. Cancel anytime.
